MEDIA RELEASE

For immediate release

SAMFORD SKIES MOVING AHEAD IN LEAPS AND BOUNDS

A sign the property industry is on the move in Queensland is being felt in Samford Valley with the announcement that construction of Stage 3 of the prestigious Samford Skies is being brought forward almost 6 month ahead of schedule, with a sales release coming soon.

Project Director Darren Jonsson believes the strong movement in Samford Skies has a number of factors associated with it.

“We are seeing more confidence in South East Queensland and people who have been waiting 2-3 years to purchase are now ready to move forward”.

“Samford Skies is a true example of this with our Stage 2 construction approaching completion and 80% of these sites already sold.”

“Stage 3 in Samford Skies has been brought forward and this is purely because demand is so high by purchasers.”

“This time last year we would not have seen such interest by purchasers-they were either not in a position to buy or weren’t willing to purchase-many were simply waiting.”

“I believe this wait is now over-our sales people are reporting a massive increase in the number of enquiries coming in and this is excellent news for Queensland and our property industry.”

Situated in the scenic hills of Samford Valley, the prestigious community of Samford Skies offers peaceful acreage living in one of Brisbane’s most sought-after locations.

Samford Skies is an idyllic country getaway with sweeping views in all directions, with lots ranging in size from 1.5 to 5 acres.

Samford Skies has all the essentials that make modern life comfortable, including full town water connection – the last full water rights granted in the Samford Valley.

Land prices start from \$399,900.

Sales enquiries can be directed to the Sales Consultant Bruce Jensen on 07 3289 7031.
